The Affordable Hospitality TV

Philips Full HD LCD TV for Hospitality

This professional LCD TV provides Philips' Smart Hotel Mode, convenient set up, and advanced programming features not found on retail televisions, making it ideal for hotels.

Best total cost of ownership
- Installation menu locking
- USB cloning of all settings for quick installation

Advanced hotel features and future proof
- Switch On Channel Programming
- Welcome message on screen display
- Smart Hotel Mode

Sustainable and safe
- Lead-free/RoHS compliant with flame retardant housing
- Eco-friendly design & flame retardant housing

Great viewing experience and guest comfort
- Digital Crystal Clear for more vivid cinema-like images

PHILIPS
sense and simplicity

Highlights

Digital Crystal Clear
Digital Crystal Clear is a processing technology that digitally adjusts and enhances picture quality by optimizing contrast, color and sharpness levels, resulting in more vivid cinema-like images.

Installation menu locking
Prevents unauthorized access to installation and configuration settings, to ensure maximum guest convenience and avoid unnecessary reprogramming costs.

Switch On Channel Programming
Perfect for in-house advertising or information channels as it allows to show a predefined channel when the TV is turned on.

Welcome message
A welcome greeting is displayed each time the TV set is switched on.

Smart Hotel Mode
Allows configuration of the TV for limited access, ideal for hotel use. Access to the user menu can be blocked, which enables you to specify channel, picture, and sound settings which your guest will be unable to modify. Picture and sound preferences may be selected from presets on the remote, offering guest selection, but never overwriting your defined settings. Switch on and maximum volume can also be specified so the set always turns on and operates at a comfortable volume. Channels can be blanked to prevent access to premium or adult content. Includes a forced power on mode.

USB Cloning
Provides the ability to easily copy all programming and channel programming settings from one TV into other TV sets in less than a minute. The feature ensures uniformity between TV sets and significantly reduces installation time and costs.

RoHS & Flame retardant housing
In additon to being lead-free and RoHS compliant, Philips TVs have a special housing of eco-friendly, non-brominated flame-retardant materials. Independent tests carried out by emergency fire services have shown that whereas TVs can sometimes intensify fires caused by external sources, Philips TVs will not contribute to the fire.
